1ST SESSION

S. 2590

To designate an Anomalous Health Incidents Interagency Coordinator to coordinate the interagency investigation of, and response to, anomalous health incidents, and for other purposes.

IN THE SENATE OF THE UNITED STATES

AUGUST 3, 2021

Mrs. SHAHEEN (for herself, Ms. COLLINS, Mr. WARNER, Mr. MENENDEZ, Mr. RUBIO, and Mr. RISCH) introduced the following bill; which was read twice and referred to the Select Committee on Intelligence

A BILL

To designate an Anomalous Health Incidents Interagency Coordinator to coordinate the interagency investigation of, and response to, anomalous health incidents, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLES.**

4 This Act may be cited as the “Directed Energy
5 Threat Emergency Response Act”.

6 **SEC. 2. FINDINGS; SENSE OF CONGRESS.**

7 (a) FINDINGS.—Congress finds the following:

1 (1) Since at least 2016, United States Govern-
2 ment personnel and their family members have re-
3 ported anomalous health incidents at diplomatic mis-
4 sions across the world and in the United States,
5 which are sometimes referred to as “Havana Syn-
6 drome”.

7 (2) Some of the anomalous health incidents
8 have resulted in unexplained brain injuries, which
9 have had permanent, life-altering effects that have
10 disrupted lives and ended careers.

11 (b) SENSE OF CONGRESS.—It is the sense of Con-
12 gress that—

13 (1) the threat to United States Government
14 personnel presenting as anomalous health incidents
15 is a matter of urgent concern and deserving of the
16 full attention of government;

17 (2) personnel, dependents, and other appro-
18 priate individuals afflicted by possible anomalous
19 health incidents deserve equitable, accessible, and
20 high-quality medical assessment and care, regardless
21 of their employing Government agency;

22 (3) diagnoses and determinations to treat per-
23 sonnel, dependents, and other appropriate individ-
24 uals experiencing symptoms consistent with such in-
25 juries should be made by experienced medical profes-

1 sionals and made available by the Federal Govern-
2 ment;

3 (4) any recriminations, retaliation, or punish-
4 ment associated with personnel self-reporting symp-
5 toms is unacceptable and should be investigated by
6 internal agency oversight mechanisms;

7 (5) information sharing and interagency coordi-
8 nation is essential for the comprehensive investiga-
9 tion, attribution, and mitigation of these injuries;

10 (6) the Administration should provide Congress
11 and the public with timely and regular unclassified
12 updates on the threat posed to United States Gov-
13 ernment personnel by the suspected causes of these
14 injuries;

15 (7) recent efforts by the Administration and
16 among relevant agencies represent positive steps to-
17 ward responding to the threat of anomalous health
18 incidents, but more comprehensive measures must be
19 taken to further assist victims, investigate the cause
20 of such incidents, and mitigate future incidents;

21 (8) establishing the source and cause of these
22 anomalous health incidents must be a top priority
23 for the United States Government and requires the
24 full coordination of relevant agencies;

(10) any actors found to have been targeting
United States Government personnel should be publicly identified, as appropriate, and held accountable.
